

*I love travelling around the world to meet quilters from all four corners of the globe! My hectic --but fun -- travel schedule is represented by the pinwheel and the fact that I often feel like my life is spinning by in a whirl as I travel to teach! But I wouldn't trade it for anything. There are four blades which make up the double pinwheel and four triangles in the block corners which represent the four corners of the globe. I'm always happiest when I'm travelling and meeting quilters*
