Easy Christmas Poinsettia Block

Fabric suggestions and cutting numbers.

Make the half-square triangles with whatever method you like– depending on the fabric cuts you choose. ie. Jelly Rolls, Charm Squares, Layer Cakes, etc.

I recommend 2 1/2" square but you can choose any size.

For fabrics use a variety of reds and greens. Flowers naturally vary in tone.

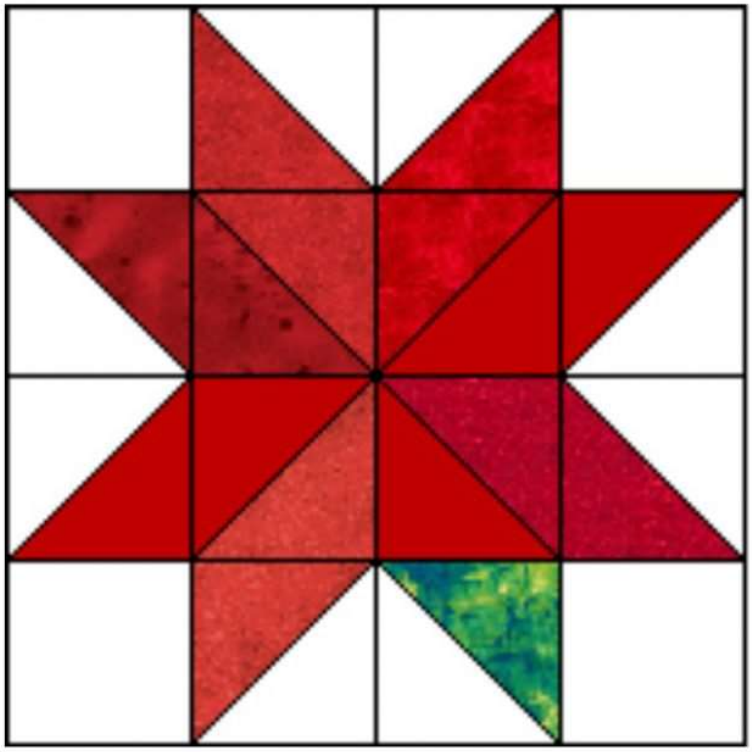

You'll need:
80 White squares. (the same size as the finished half-sq. triangles)
34 white/green half-sq. triangles

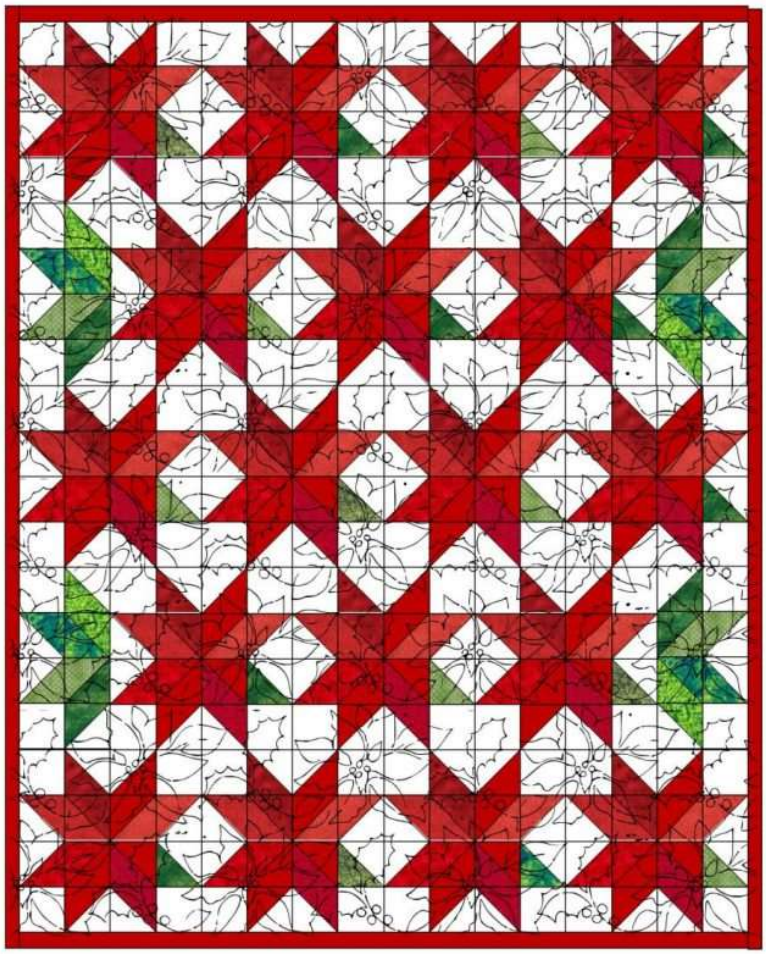

8 green/green half-sq. triangles

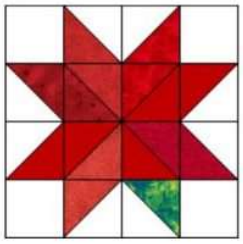

72 red/red half-sq triangles

126 red/white half-sq. triangles

I'm attaching my favorite method for making **8 half-square triangles at once!**
But, you can use any number of ways shown online.

Here's a Quick Quilt Idea!

EIGHT HALF-SQUARE TRIANGLES AT ONCE !

Below is a set of directions for 2 1/2" half-square triangles. **This means when sewn into a quilt they become 2" half-sq. triangles.**

NOTE: These are planned to work out exactly, so your cutting, marking, and sewing must be exact also.

FOR THE PERFECTIONIST: If you like you can make the large square bigger, rounding up to the next even number (eg.4 ¾" up to 5"). Then after the half-sq. triangles are cut , press them and re-trim to the exact size.

Here is a chart for other sizes: (I don't remember where I got this chart so I do not take credit for it!)

Large square cutting size	small cut size	Finished size (set into quilt)
3 ¾ "	1 ½"	1 "
4 ¾"	2"	1 ½"
5 ¾"	2 ½"	2"
6 ¾"	3"	2 ½"
7 ¾"	3 ½"	3"
8 ¾"	4"	3 ½"
